## HEAVY COSTS IN QUARANTINE CASE

Fine and Costs in Case against William Menchey Amount to Over Twenty Two Dollars. Could have been Heavier.

William F. Menchey was given a hearing before Squire Hill this morning on a charge of violating quarantine regulations and a fine of \$1.00 and costs amounting to \$21.15 were imposed after hearing the evidence in the case.

The act governing such cases provides for a minimum fine of \$50.00 but this was deemed excessive in view of the fact that the defendant explained his visits downtown the day following the placing of the quarantine by saying that he had gone for medicines under the direction of the physician in attendance, Dr. W. H. O'Neal. Mr. Menchey claimed that the Board of Health should inquire after families' wants in cases of quarantines but inspection of the act showed that such care on the part of the health authorities was entirely optional.

In view of the offense being merely technical it was felt that the imposition of a fine of \$50 with costs would be a persecution, when the health authorities wished only a reasonable result from just prosecution and, after conferring with J. Donald Swope, Esq., attorney for the county commissioners, the fine going to the county, it was decided to forego this and impose a nominal fine of \$1.00. Should the commissioners refuse to accept this measure at their meeting on Tuesday it will be necessary for the \$50.00 fine to stand, which with the costs would amount to \$72.15. Of the costs \$7.10 are for squire's and constable's fees and the balance are for expenses incurred by the health authorities in the case.

The evidence at the hearing told chiefly of the quarantine being placed and of the subsequent appearance of Mr. Menchey on the streets of town. The visit of Mr. Wavell, health officer, to the Menchey home on the second day of the quarantine, after the violation was known was also told. John D. Keith, Esq., represented the Board of Health and Mr. Menchey conducted his own case. In addition to the testimony of Dr. Stewart and William Wavell, Dr. O'Neal testified to his report of the case, various documents were presented showing that the Board of Health had dealt properly in its conduct of the matter and Mr. Menchey told his side of the story.

The case was continued until tomorrow by which time it is expected that Mr. Menchey will have made arrangements for the payment of the fine and costs.

### SOCIAL

Miss E. Mae Watkins superintendent of the Junior Christian Endeavor of the Lutheran church of Biglerville and her assistants gave a social for the 72 members. They enjoyed playing various games for two hours after which they were given a very interesting address by their pastor, Rev. C. F. Floto. They were then invited to a table which was prepared with refreshments of which the little people partook very heartily. At 10 o'clock they all sang "America" and returned home with expressions of gratitude to their superintendent and assistants for their kindness.

### SHOOTING MATCH

A shooting match held at the toll gate on the Baltimore pike on Washington's birthday gave the following scores:

Claybirds: Broom 22 out of 27; Taylor 20 out of 29; Sterrick 21 out of 28; Bushman 2 out of 5; Myers 3 out of 10; Hoffman 29 out of 34. Five live birds: Myers 2, Broom 5, Sterrick 2, Taylor 4.

### INDIANS LEAVE

The Cherokee Indians who spent the past few days here left on their journey westward this morning. Among the stunts performed by the people during their stay here was a feat of the little children who took delight in sliding on the ice with neither shoes nor stockings on their feet. The sport seemed to please them greatly.

### SUCCESSFUL BOX SOCIAL

## WIDELY KNOWN MINISTER DEAD

Rev. D. P. Schaeffer, Evangelical Minister, well known here and elsewhere, Dies at his Home in Idaville.

Rev. D. P. Schaeffer, pastor of the Idaville Evangelical church died at the parsonage in Idaville at two o'clock Thursday afternoon after an illness of ten days from pneumonia, aged 64 years, 7 months and 9 days.

Rev. Mr. Schaeffer was a widely known Evangelical clergyman, a successful minister and a man who will be greatly mourned by all who knew him. He spent a large portion of his life in the Christian ministry and served many churches. His first pastorate was at Liverpool, Perry county, where he remained a year. For three years he was pastor at Hartleton, Union county; for similar periods at Lewisberry, York county; and Kralltown, York county; for two years at Blossersville, Cumberland county; for four years at Craleysville, York county; and for two years each at Bryansville, York county, and Idaville, Adams County.

On Sunday, February 10, he preached a touching farewell sermon at the Idaville church preparatory to meeting of Quarterly Conference. The discourse made a profound impression upon his hearers. The churches included in his last charge were Idaville, Beaver, Union and Flint Ridge, all of whose members were greatly attached to the minister. Rev. Mr. Schaeffer was a member of Washington Camp 426, Patriotic Order Sons of America, of Millmont, Union County.

He leaves his wife three sons, and one daughter, Paul and David Schaeffer, of Altoona; James Schaeffer, of Clearfield; and Mrs. Lizzie Rice, of Mason and Dixon, Maryland. He also leaves one brother, living at Rocky Springs.

The body will be taken to Mason and Dixon for burial, leaving on the early train Monday morning. No services at Idaville.

### NEW SILK COMPANY

A new corporation was organized in Hanover this week to be known as the O'Neill Silk Company of Hanover. It is the purpose of the new company to manufacture silk novelties and specialties, including ribbon, although for the present men's neckwear will compose the greater part of the production. Preparations are being made to start operations at once. The following Hanoverians are the incorporators: T. J. O'Neill, Dr. C. P. Wolcott, R. L. Ehrhart, F. W. Weber and J. Clair Slagle. At a meeting held the following officers were elected: president, T. J. O'Neill; vice president, C. P. Wolcott; treasurer, W. P. Devine; secretary, R. T. O'Neill; general manager, T. J. O'Neill. The following directors were elected: John H. Dobbling, York; William P. Devine, Robert L. Ehrhart, J. Clair Slagle and C. P. Wolcott, Hanover. A charter for the new corporation has been applied for.

### DR. H. W. SWARTZ ACCUSED

Dr. Henry W. Swartz, of New Oxford, was arrested in Baltimore on Thursday by Detectives Kahler and Oliphant and locked up at the Western Police Station on the charge of practicing medicine in Baltimore without the proper authority. The arrest was made on information received from Dr. Herbert Harlan.

According to the detectives Swartz had been in the habit of making trips to the city and arranging to meet persons suffering with cancer. In order to trap him Detective Oliphant exhibited what he termed a pimple on his face and the detective alleges that the Doctor called it a cancer and gave him treatment for which he charged \$2.

## LARGE AUDIENCE AT CELEBRATION

Court House Crowded on Evening of Washington's Birthday for Exercises of Two Patriotic Orders.

The Court House was crowded almost to capacity on Thursday evening for the Washington's Birthday celebration given under the auspices of the two patriotic orders of the town and a program, entertaining and delightful in every particular, was rendered. Even the aisles were used to accommodate the crowd and the large audience stayed for the entire program.

"America" and "The Star Spangled Banner" were led by an orchestra, the audience joining in the two songs while "We're Tenting Tonight" by the Radisill Quartet and a number of songs by children added to the patriotic character of the evening's entertainment. Other numbers were in keeping with the spirit of the occasion. Miss Reba Miller sang several solos, Miss Lillian Kitzmiller recited as did Frank H. Kramer, and there was a musical trio by Edna Zincaud, Ralph Oyler and William Zincaud, Jr.

The two addresses of the evening were made by Prof. C. F. Sanders and Rev. J. B. Baker. Prof. Sanders' subject was "The Spirit of Patriotism" and he gave an earnest speech which received the close attention of the large audience. Rev. Mr. Baker told "What Washington would do if he were here today," in an entertaining manner depicting the part the "Father of his Country" would play in present day affairs should his life have been set for this period instead of the trying Revolutionary days.

This meeting throughout was most enjoyable and a credit to the two orders—the Patriotic Order Sons of America and the Order of Independent Americans whose joint committee consisting of the following had charge of the affair: S. G. Spangler, Prof. J. Louis Sowers, J. C. Wierman, Frank Garlach, C. B. Kitzmiller, John McDonnell, Gervus Myers, J. P. Oyler, Theodore Frock and Irvin Leech.

### BARN PARTLY UNROOFED

### SAVE \$15,000 ON SOAP

When Chief Burgess Zacharias, of Chambersburg, advised the other officials of his town to take the water from Birch Run he declared that the people would save \$7,000 or \$8,000 a year in soap on account of the difference in the hardness of the Birch Run water and that of the old source of supply. Captain W. G. Davison asserts that he considered the statement a wild one, but he is now convinced the saving is at least \$15,000 a year, as his family has not used more than 35 per cent. as much soap as formerly.

## TAFT TO REPLY TO ROOSEVELT

Will Make an Address in Toledo Next Month.

Washington, Feb. 23.—President Taft accepted an invitation to deliver an address at Toledo, O., on his coming western trip early next month, when Mr. Taft has arranged to go to Chicago to spend Saturday, March 9.

The president will leave Washington on the evening of March 7, and will speak in Toledo on the following night. He will spend March 9 in Chicago, returning to Washington on Monday, March 11.

It is expected, however, that several other cities may be added to the itinerary before it is finally completed. On this trip Mr. Taft will probably take occasion to reply in an impersonal way to the main features of the speech of Colonel Roosevelt at Columbus on Wednesday.

While Mr. Taft's opposition to the recall of judges and other progressive measures are well known, he will probably restate his views to make clear his attitude toward these questions.

To many of the doctrines the former president enunciated at Columbus President Taft is in agreement; to others he is known to be unalterably opposed. In the second division are the initiative and referendum, the recall of judges, and the recall of judicial decisions.

## "POISONED PEN" STIRS POTTSVILLE

Many Churchmen Received Scandalous Letters.

## ARE TRACED TO A WIDOW

Members of Methodist Church Receive Epistles Similar to Those in Easton Case.

Pottsville, Pa., Feb. 23.—"Poisoned pen" letters sent through the mails for a period of more than a year past to members of the First Methodist Episcopal church, one of the largest and most influential congregations in the Philadelphia conference, were traced to a widow, a member of the congregation.

The letters, which bear a remarkable similarity to those which almost disrupted an Easton congregation, for which Miss Harriet Dewitt was tried and acquitted in Philadelphia two months ago, were both typewritten and written by hand, and the test applied by Postal Inspector Schoenberger was almost similar to the Easton case.

Not only is the writing of the widow said to agree with the superscription on the letters, but in an upstairs room in her house was found a typewriter of the make of the machine used for the mischief-making missives.

When confronted with this evidence of her guilt the woman at first denied the accusation, but finally refused to talk on the matter. No arrest has been made, and influential members of the congregation have started a movement to have the woman forgiven, conditional upon her making a confession and showing signs of penitence.

Lawyers, physicians and business men of the congregation have been the victims of the anonymous letter writer for months, and even the pastor, Rev. Dr. W. H. Lindemuth, was not exempt.

G. T. Burd, a business man, was especially singled out. Mr. Burd was a widower at the time most of the letters were written and taught a class of young women in the Sunday school. When it became known that he was the recipient of scandalous letters and that an investigation was in progress some of the class absented themselves from the school, fearing that the finger of suspicion might be unjustly pointed at them.

Several months ago Mr. Burd married, and on that occasion he received a letter from the "poisoned pen" writer predicting that his bride would never step alive into the new home which he had provided for her.

Most of the letters sent to other persons were of such a scandalous nature as to be unprintable, and until the active investigation started by Inspector Schoenberger called a halt on the sending of the missives, threatened to split the congregation.

## HEARTY LAUGH FATAL

Lancaster Man Drops Dead In Vaudeville Theater.

Lancaster, Pa., Feb. 23.—Edward Davis, a house painter, forty-five years old, died in a local vaudeville theater.

Davis, who was apparently in perfect health, seemed to enjoy the performance immensely. He was laughing heartily over a comedian's joke, when suddenly he slipped to the floor lifeless.

A physician pronounced death due to heart failure, caused by his hearty laughter.

## WIND UPSETS NINE HOUSES

Wreckage in West Virginia Town Catches Fire.

Bluefield, W. Va., Feb. 23.—Nine dwellings were blown over by a violent wind storm at North Fork, W. Va.

The wreckage took fire and burned for an hour. Several people are reported missing, and a woman and child were severely burned.

The town of North Fork is in the section devastated by the great Elkhorn flood in 1901.

## CHINESE AVIATOR HURT

Tom Gunn Falls on Pumping Station at Oakland, Cal.

Oakland, Cal., Feb. 23.—Tom Gunn, the Chinese aviator, was probably fatally injured by a fall of 100 feet at the aviation meet.

He landed 200 yards outside the aviation field, falling on a pumping station. He is believed to be dying at a hospital.

## Robins and Geese at Shore.

Atlantic City, N. J., Feb. 23.—Sure signs of spring reached Atlantic City. Showers that fell at intervals, after the fashion of those characteristic of April, with a thunder and lightning accompaniment, brought with them birds from the south. Robins were seen flitting about in several sections of the city and flocks of geese streaked across the sky, high above the city.

## FIVE LINERS ASHORE

Old Dominion Liner Beached After Collision in Storm.

Norfolk, Va., Feb. 23.—With only a few inches of her main deck visible above the water, the Old Dominion line steamer Madison lies in the mud between Bush Bluff light and Lambert's point.

Three mudscows owned by the Morris & Cummings Dredging company, with two men on each, are somewhere at sea, driven from shore by a forty-mile gale.

The Madison was rammed by the steamer Hippolyte Dumois during a fifty-mile gale. The Madison had a hole torn in her starboard side almost amidships. Captain Hulpers, her commander, realizing that his ship would sink, turned her nose toward the shore and signaled the engine room for full speed ahead.

The Madison is flooded from her freight hold to her cabins, and even if she is floated she will have to be refurnished throughout. The crew of the Madison were taken off by the steamer Smithfield, which was summoned by wireless.

The Danish steamer Hermes was blown ashore by the high winds and is high and dry on the beach at Lambert's point.

The Danish steamer Nordstjernen, the British steamers Elswick Manor and Strathallan and the Norwegian steamer Cecil were torn from their moorings and driven ashore.

## COLOMBIA RECALLS TALKATIVE ENVOY

His Government Knew Nothing of Insult to Knox.

Bogota, Colombia, Feb. 23.—General Pedro Nel Ospina, Colombian minister to the United States, was recalled by the Colombian government.

The action of the Colombian government was taken because neither it nor the Colombian people uphold the position taken by the Colombian minister at Washington in notifying the state department that the visit to Colombia of Secretary of State Knox would be "inopportune," owing to the fact that Colombia's claims in connection with Panama have not been arbitrated.

The notification given by the Colombian government says that General Ospina is "separated" from his post at Washington and that the incident between Colombia and the United States is thus closed.

Colombia, it continues, will maintain her international policy.

## U. S. Took No Action.

Washington, Feb. 23.—The only concern of the state department, upon being informed of the recall of the Colombian minister, was that it should be thoroughly understood that the department had not directly or indirectly suggested this course. It appears to have been purely voluntary on the part of the Colombian government.

Two months will be devoted to the vote, which will be taken by 35,000. The same representatives will meet on May 1 to count the ballots. Then the railroad officials will be asked for a joint conference to consider the vote.

## JOHN D. VERY MUCH ALIVE

Like Mark Twain, Reports of His Death Are Somewhat Exaggerated.

New York, Feb. 23.—Some excitement was caused in newspaper offices here by a report that John D. Rockefeller was dead.

Communications sent to Augusta, Ga., where the oil king is spending the winter, brought the immediate reply that he "was very much alive."

A similar report was circulated a year ago.

## Girl Crossing U. S. on Horse Lost.

Danville, Ill., Feb. 23.—Miss Alberta Claire, who is riding horseback from Sheridan, Wyo., to Buffalo, N. Y., is reported lost in the snow between this city and Sidney, Ill. Miss Claire was riding a horse named Danville, but failed to have reached Danville, but failed to arrive. Her last scheduled stop was at Sidney, and a telephone message from there said she left on Tuesday night.

## REPORT URGES POSTAGE RAISE

Taft Would Double Second Class Mail Rate.

## SENDS REPORT TO CONGRESS

Indorses Commission's Recommendation For Higher Rate on Newspapers and Periodicals—Against Public Ownership of Telegraphs.

Washington, Feb. 23.—President Taft approved and forwarded to congress the report of the commission on second class mail, recommending that the postal rate on magazines and newspapers be raised from one cent to two cents a pound.

In the same message urging the enactment of the recommendation into law the president informs congress that he does not approve of Postmaster General Hitchcock's suggestion that the government buy and operate all telegraph lines as an adjunct of the postal system. The message says that if it could be shown that the public would benefit by receiving service at a less price than is now paid he might think differently of the plan, but that he was not convinced such would be the effect.

The question of increasing the rate on second class mail was raised a year or more ago by Postmaster General Hitchcock, who originally recommended a four-cent rate, but later changed his recommendation to a two-cent rate, as now recommended by the commission.

Opposition to the postmaster general's plan resulted in the appointment of the commission, consisting of Associate Justice Hughes, of the United States supreme court; Dr. A. Lawrence Lowell, president of Harvard university, and Harry A. Wheeler, president of the Chicago Association of Commerce, with instruction to investigate the entire subject and report to congress through the president.

The commission finds that the cost of handling second class matter is about 5 1/2 cents a pound. In approving the two-cent rate, President Taft declares that the business enterprises of the publishers of periodicals have been built up on the basis of the present one-cent rate and therefore it would be manifestly unfair to put into immediate effect a larger increase in postage.

As to the effect of the proposed increase from one to two cents a pound, President Taft quotes from the report of the postal commission the following paragraph:

"Such an increase will not, in the opinion of the commission, bring distress upon the publishers of newspapers and periodicals, or seriously interfere with the dissemination of useful news or information. A reasonable time should be allowed after the rate is fixed before it is put into effect. While the news rate will be very far from compensating the government for the carriage and handling of second class matter, it will to some extent relieve the existing burden and result in a more equitable adjustment of rates."

"The postal service is now, for the first time in years, operated upon a self-sustaining basis, and in my judgment this is a wise policy," said the president, "but it should not be carried out at the expense of certain classes of mail matter that pay revenue largely in excess of their cost."

In opposing, at least at this time, government ownership of the telegraph lines, the president says:

"I believe that the true principle is that private enterprise should be permitted to carry on such public utilities under due regulation as to rates by proper authority rather than that the government should itself conduct them."

"Of course, if it could be shown that telegraph service could be furnished to the public at a less price than it is now furnished to the public by telegraph companies, and with equal efficiency, the argument might be strong in favor of the adoption of the proposition. But I am not satisfied from many evidence that they could be managed any more economically or any more efficiently or that this would enable the government to furnish service at any smaller rate than the public are now required to pay by private companies."

Mr. Taft approves the adoption of a parcels post recommended by Mr. Hitchcock; says that the placing of assistant postmasters in the civil service should be followed by placing under the classified service of postmasters and commends the postal savings system.

## ABE ATTELL.

Featherweight Champion Defeated by Johnny Kilbane.

## WINS ATTELL'S TITLE

Johnny Kilbane Defeats Featherweight Champion in 20-Round Bout.

Los Angeles, Cal., Feb. 23.—Johnny Kilbane, of Cleveland, defeated ABE ATTELL, featherweight champion, in a twenty-round battle at Vernon, a suburb of Los Angeles, for the featherweight title.

Kilbane won his victory in easy fashion, and it was seen early in the battle that he was the victor. AtteU put up a pretty good showing in the first seven rounds, but thereafter he was out of the running, and Kilbane, with his cleverness and shifty movements, defeated him without question. Kilbane used his right and left swings to the jaw and head with perfect skill and his speed was remarkable. ABE was outclassed and is no longer a champion.

## Klaus Wins 20-Round Bout.

San Francisco, Feb. 23.—Frank Klaus, of Pittsburg, was given the decision over "Sailor" Petroskey, of this city, at the end of their twenty-round boxing bout in Dreamland pavilion. Klaus was the aggressor, landed the greater number of blows and showed superior cleverness throughout, but the Pittsburger could not land the punch necessary to knock out his sturdy sailor opponent.

## Mantell Wins Over Billy Papke.

Sacramento, Cal., Feb. 23.—Frank Mantell won the decision over Billy Papke in twenty rounds.

## SAY RESERVE COAL SUPPLY IS LOW

Anthracite Miners See Hope For Concessions.

Wilkes-Barre, Pa., Feb. 23.—District officials of the United Mine Workers, who sent out scouts several days ago to ascertain how much coal anthracite coal operators have stored in anticipation of a strike of the mine workers, reported back, and it is understood that they estimate the total amount stored in the anthracite regions to be only about 1,000,000 tons, and not much more than 500,000 tons in yards outside the region.

This, they declare, is about one-fifth of the annual output, based on the figures for last year, and would supply the average demand for only seven days, although in the warm springtime it would probably last three times that period.

The mine workers say that under the most favorable circumstances the operators will have not enough coal to supply the spring demand for more than a month, and they do not think dealers in various cities have more than three or four weeks' supply at best in their yards.

The mine workers, who believed the operators had five or six million tons stored, are encouraged by their discovery, they say, to hope that the operators will grant them some concessions and secure a peaceful settlement of the strike.

## Hug Broke Her Ribs.

Sterling, Ill., Feb. 23.—Miss Laura Drew, nineteen years of age, has brought suit for assault and battery against Frederick Knox, forty-eight years old, as a result of his too ardent love-making. Miss Drew asserts that Knox, who has been paying attention to her recently, asked her to marry him. Evidently taking it for granted that she would acquiesce, she declared she gave her a loving squeeze which caused her to faint, and she kept to her bed for several days. She alleges that three ribs were cracked as a result of Knox's heartlike hug.

## General Miles' Brother Fatally Stricken in Washington.

Stopping his automobile, he inquired what the trouble was, and was informed that a man had fainted and was apparently dying. General Miles offered his services and was shocked to find that the man lying on the ground was his brother, Daniel C. Miles, of Westminster, Mass.

General Miles, with the assistance of one or two others, carried the man to the automobile and then hurried to the general's apartments. The general's brother was dead when the machine arrived at the apartment house.

Mr. Miles was eighty-five years old and had been suffering from heart disease.

## NINE BABIES DIE OF POISON

Woman Believed to Have Put Oxalic Acid in Milk.

## FOUR DANGEROUSLY ILL

Insane Patient Working in Kitchen of Brooklyn Nursery Had Demanded Pay, Which Was Refused.

New York, Feb. 23.—The Brooklyn police believe they have found in the Brooklyn Nursery and Infant hospital, at 396-410 Herkimer street, an insane woman who has poisoned not less than thirteen babies. Nine of these are dead. Four are dangerously ill.

An autopsy performed by Coroner's Physician Charles Wuest disclosed in the stomach of one of the babies that had died milk that had an irritant poison in it—believed by the physician to be oxalic acid.

Babies have been dying mysteriously at the hospital, one of the most reputable in Brooklyn, for several days. Four died on Sunday. Three more died Wednesday. Five were taken ill Thursday night. One of these died, and the other four are thought to have a chance for life.

The investigation of the coroner leads him to believe that a woman patient in the hospital, who has been working in the kitchen, put poison in the milk for revenge. She is said to have demanded pay for her work in the kitchen, and was disgruntled when pay was refused.

One of the nurses told the coroner that this woman asked for five cents on Saturday, saying that she wanted to buy oxalic acid for cleaning.

Detectives went to the hospital and took the woman back with them to the office of the district attorney to be questioned. The woman had written letters to the trustees complaining of bad treatment.

Investigation showed that she had no grounds for her complaint. The officials of the hospital and the physicians who have been investigating the case believe the woman is suffering from delusional insanity.

The officials of the hospital are terrified at the situation, and are said to want a thorough investigation made.

## CHARITY WORKER A THIEF

Payment of \$200 Will Vacate Prison Sentence of Eighteen Months.

Paris, Feb. 23.—The woman known as Sister Candide, formerly superior of the Order of St. Ann, and for years engaged in an elaborate scheme of charitable work, was sentenced on a charge of embezzlement and abuse of confidence to eighteen months' imprisonment.

Her sentence was suspended and she was fined \$200, on payment of which she will be relieved from serving her term in prison.

She was arrested on May 20, 1910, at the instance of a firm of jewelers, from whom she had borrowed great quantities of jewelry, ostensibly to sell on commission. Much of this jewelry was found later in the pawn shops of Paris and London.

One of the woman's associates, Dr. Pettit, hanged himself on the day she was arrested, leaving a note saying that he could not face the exposure, and charging her with the responsibility. She is alleged to have embezzled \$800,000.

CAREFUL MAN'S OPINION

Business men are careful about what they say—it is part of their training. Therefore when Mr. J. G. Clarke, a business man of Westchester, N. Y., answered a question about his greatly improved health his opinion may be considered correct.

He said "Having been troubled with a bad cough and bronchitis for nearly a year, I decided to take Vinol a short time ago. The cough has now disappeared and my health is very much improved."

"I certainly consider Vinol a valuable remedy and should be kept in every home—until people try it they don't know its value."

Thousands of other intelligent people praise Vinol simply because they have found it just what they needed to drive away lingering coughs and build up their health and strength.

Vinol is a delicious cod liver and iron preparation without oil, and is the greatest strength renewer for all who are weak and run down. We guarantee it to give perfect satisfaction. People's Drug Store, Gettysburg, Pa.

For the Farmer Who Thinks.

Hard wood ashes contain from 1 to 10 per cent potash and considerable lime. Save all of your hard wood ashes and apply to the soil.

Most farm homes are seriously lacking in proper ventilation, especially in winter, when every one cares more for the warmth of the room than for the purity of the air in it.

Make all needed improvements at the barn. See to it that the barn is comfortable for the animals during cold weather. You cannot afford to waste feed in trying to keep up animal heat when the animals are exposed to severe weather.

THE HORSEMAN.

The care of a horse's feet in the stable is of the greatest importance in preserving lameness.

Wetting the hoofs with a sponge and clean water every day or simply dipping each foot into a pail of water will keep the feet from becoming dry. Water is much better than any hoof oil.

Packing the feet is good, but if the water treatment is begun while the feet are in good condition packing will never be necessary. Watch the blacksmith. Never allow the heels to be drawn in.

The slabbering horse may be in need of more grain, or it may be that its teeth need filing.

In the purchase of a new horse always purchase a mare. She will raise you some colts, which will increase the farm profits.

Among the most striking figures which have been compiled in connection with the products exported during the past ten years are those having to do with live stock and meat. Statistics show that in 1901 there were exported from the United States 799,000 head of farm animals and 1,389,000,000 pounds of beef and pork. In 1910 the export of the meat animals had fallen to 188,000 head, while the exports of beef and pork were but 370,000,000 pounds.

A horse is often given a tonic to improve its condition when what is needed vastly more is to have the teeth filed so that the food can be properly masticated.

Corncobs not only make first class kindling material, but at \$1.65 for a triple wagon box full compare favorably in fuel value with coal at \$5 a ton or wood at \$6 per cord.

England is smaller than many of our own states, yet the past year she produced 61,657,568 bushels of wheat, which was an increase of 10 per cent over the yield of the year preceding.

Anahelm, Cal., is the center of an extensive celery raising district, from which 1,000 cars of the vegetable will be shipped during the present season.

New Zealand has twenty-four sheep for each inhabitant. Farmers of the United States would be better off than they are today if, as a country, we could make as good showing.

Sand and gravel are usually viewed as sort of plebian stuff in nature's economy and the business world, but it took \$21,037,630 in 1910 to buy what was used in building and other purposes.

of the barrel, the solutions cannot destroy it by corrosion. An easy movement of the hand lever backward and forward will maintain a pressure of One Hundred and Twenty-Five Pounds and at the same time operates the dasher within the barrel.
